

New York Stock Market

New York, August 9.—(Until the final hour when the government crop report was issued, today's stock market consisted of little more than a series of narrow advances and declines, the exceptions being the higher priced specialties, the Canadian group of railroads and those traversing the Southern States.

There was much less trading than in the preceding days of the week, with frequent periods of extreme inertia. Traders seemed hesitatingly inclined, but evinced no desire to test the market, save in a tentative way.

Local monetary conditions pointed to increased ease, as seen in the shading of rates for long-time accommodations. The banks are expected to make a few cuts in their dealings with the local Subtreasury and interior points.

The trend of bond prices was lower on moderate gains. The 3 per cent rate, aggregate \$1,475,000 of United States government bonds were exchanged on call.

New York, August 9.—Money on call steady; 2-1/2% 1-4; ruling rate, 2-3/4. Time loans easier; sixty days, 4-1/2. Six months, 4-3/4. Prime mercantile paper, 6-1/2. Sterling exchange firm \$1.47 1/2 for sixty-day bills, \$1.47 1/2 for demand. Commercial bills, \$1.47.

REVIEW OF TRADE

New York, August 9.—Dun's review, August 10, will say: The leading crops are brought closer to maturity under favorable conditions, which are especially beneficial this week and on bearing on future economic conditions and costs.

The leading crops are brought closer to maturity under favorable conditions, which are especially beneficial this week and on bearing on future economic conditions and costs. Prices of the important staples, play a revision downward. In most of the other primary markets, trading is maintained on fairly active lines.

The expansion in iron and steel continues, with activity especially marked in finished lines and with additional price advances. Of the 30,000 tons of rails for which inquiries were in the market, contracts for 150,000 tons have already been closed.

Trading in the dry goods market shows steady expansion. The spot markets have as a rule been steady. The movement of new cotton, though larger than recently, is much smaller than at this time last year.

Another Fire in Washington. (Special to The Times-Dispatch.) Washington, N. C., August 9.—Washington was visited by another killing fire today when the large dry kilns and lumber shed of the Pamlico Company were totally destroyed.
